Section 6 International Services and Supplies

Finding and International Provider

You may visit any dentist and you will receive in-network benefits for any covered benefits received internationally. However, if you receive care from a dentist that participates in our international dental program you will benefit by receiving our negotiated discounted provider rates. Our international dental program includes English-speaking dentists in approximately 100 countries worldwide. Customer service is available 24/7 to assist in making an appointment.

For help in locating an in-network provider, you may call 24 hours a day (outbound calling code for the country you are calling from) plus 353-94-9372257. If calling from Ireland, press 0-94-9372257.
